

CVap® Flip Door Holding Cabinets

CVap Holding Cabinets with flip doors are the latest addition to Winston's holding line. Available in convenient countertop and full sizes, there are configurations to fit every need.

**Easy Refilling
and Packing**

**Magnetic
Hinges**

CVap gives you consistent food quality. Our flip door cabinets allow you to pack from the front while keeping the fried chicken hot.

Flip up doors stay in place to make refilling and boxing easy. Patent-pending magnetic hinges won't wear out over time. See-through doors mean you always know how much inventory is available.

**Approved
for the
KFC System**

*Based on flush countertop installation. International units may differ, depending on specific installation. **Based on use of 5" heavy duty plate casters. ***NEMA - US orders supplied with 84" (2134mm) (minimum) power cord and plug. The input average of current did not exceed the allowable amperage for the circuit listed. International order shipped with cord, but without plug.

WATER FILL: Low water detection. Auto-fill included. Low mineral potable water recommended, otherwise use deionizer/demineralizer to minimize corrosion damage.

INSTALLATION REQUIREMENTS: Units to be installed with 2" (51mm) clearance on sides and may not be installed within proximity to anything emitting heat that would allow the exterior of the Winston cabinet to exceed surface temperatures of >200°F. Refer to owner's manual for specific installation requirements.

INDUSTRY COMPLIANT: Equipment complies with domestic and most international requirements; such as UL, C-UL, UL Sanitation, CE, MEA, EPA202, and others.

DRAIN: US locations will have drain located at the center of the cabinet bottom. International locations will receive the standard front ball valve drain.

See KFCFryers.com for standardized specification information.
